Reasons to buy a Swift Motorhome

Whether you are seeking exhilarating adventure or peace and tranquility, our aim at Swift is to make your holiday as comfortable and enjoyable as possible

[Find out what sets Swift apart](#)

1

Reliable Build Quality

Exclusive to Swift, SMART Construction is the UK's most popular modern construction system. Years of research and rigorous testing went into its development.

**No wonder we've given
it a 10-year manufacturer
bodyshell warranty**

2

Protecting good looks

GRP outer skin, hail resistant roof and GRP rear gives a tougher exterior; more impact resistant than aluminium and easier to repair than ABS. Inside, cushioning tested to extreme, bleachable carpets and optional SwiftShield fabric are all designed to keep your home from home looking its best.

Swift motorhomes are built to last

PURE MAGNIFICENCE

2019 sees the exciting, completely new redesign of the flagship Kon-tiki range. The results are sensational and deliver exquisite style inside and out.

Both low-line and high-line models have striking new aerodynamic silhouettes with new integrated GRP overcab, full height GRP rear panel with curved stargazer roof window, flush fitting windows and new exclusive LED rear light clusters.

At the wheel new technologies improve journey safety including Swift Vision featuring colour side and rear view cameras. Sat Nav, ESP with hill-hold, traction control and hill decent also now feature as standard. There are even new heated captain chairs and under floor heating in seating areas for those chilly days.

With class leading SMART construction, there is a choice of five models including two new TAG axles with mid-transverse washroom and rear fixed beds.

SWIFT

SWIFT

Carefully designed and cleverly detailed, the spacious interiors with increased internal head height, provide the maximum in luxurious comfort and practicality.

New 'Darwin' soft furnishings with contrasting woven and soft velvety textures combine with new 'Oyster Grey' aircraft style upper locker doors to give an enviable look. There is also a sumptuous leather option. For little passengers new Isofix points have been added to the ergonomically shaped rear travelling seats.

The large panoramic windows let in plenty of natural light and for the perfect ambience and comfort at night, the interior can be lit in different ways with a multitude of energy efficient LED's and all fixed beds are fitted with the exclusive, sumptuously comfortable Duvalay Duvalite mattress.

Zonal control of the Alde heating, including new underfloor heating in seating areas lets you get the temperature just right.

High-line Kon-tiki models come with a new sleek profile thanks to an A-class style pull down overcab bed which features a Duvalay mattress for additional comfort and bi-colour LED strip lighting.

Luxury mid kitchens all have new features including Corian® linen natural acrylic stone solid work surfaces, soft close drawers, integrated extractor fan with light, large 190L dual hinged Dometic fridge freezer, exclusive high performance Dometic oven, illuminated printed acrylic splashback and 'Oyster Grey' kitchen cabinets.

Built in Wi-Fi and new dedicated USB points cater for a connected world and Swift Command, the easy, convenient way to remotely monitor and manage onboard functions like heating now benefits from an improved user interface. It also features the option to subscribe to a pre-installed Thatcham Category 6 approved pro-active tracker, to keep your investment better protected.

Kon-tiki models come with almost everything as standard, leaving only engine, fabric, tow bar and roof rack options.

Maximum User Payload	- 60kg
Overcab Bed	1.91m x 1.37m / 6'3" x 4'6"
Overall Height	3.13m/10'3"

All other specification as table

Notes

- The Maximum User Payload includes:
 - the conventional load (this is the allowance for passengers)
 - essential habitation equipment (items and fluids required for safe and proper functioning of habitation equipment)
 - optional equipment (items available from the manufacturer over and above the standard specification)
 - personal effects (those items not covered by the above)
- The Mass in Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver plus engine coolants and 90% of the fuel tank capacity and 1 x 6kg Calor Lite LPG cylinder. The MRO is calculated with the fresh water tank empty. If you travel with water in the fresh water tank then the payload will reduce accordingly.
- Please take care to ensure that you have allowed for the masses of all items you intend to carry in the motor caravan, e.g. passengers, optional equipment, essential habitation equipment and personal effects, such as clothing, food, pets, bicycles, sailboards, sports equipment etc.
- Warning - under no circumstances should the maximum technical permissible laden mass of this motor caravan be exceeded.

* Estimated
 ** For optional roof ladder add 120mm to length and 100mm to height on low-line.

Please note that the additional weight of the tow bar and trailer nose weight increases the rear axle loading of the motor home so care should be taken that the rear axle load is not exceeded when towing. To ensure adequate road holding, the load on the front axle, under all conditions, must not be less than 40% or more than 70% of the total weight. Care must be taken when distributing loads. The loadings and weights above are maximums and must not be exceeded under any circumstances. The maximum trailer weight is limited by the Gross Train Weight which must not be exceeded. For example, if the vehicle is at the maximum MTPLM of 5000kg, then the maximum trailer weight possible is 1000kg. Reducing the weight of the vehicle by removing payload, will allow you to increase the trailer weight up to a maximum of 1600kg.

† Maximum trailer nose weight limited to 40kg

VALUE ADDED PARTNERS

Swift is delighted to have secured exclusivity to fit the Duvalite mattress as standard in all fixed bed models across all motorhome ranges. This innovative lightweight Memory Fibre Mattress is as comfortable as memory foam but has many other benefits. Constantly innovating Duvalay ensure our customers have the premium night's sleep they need and deserve.

Way back in 1994 Swift chose Alde heating systems to help make their motorhomes feel more like home. Proudly made in Sweden since 1949, Alde delivers the quietest, most comfortable motorhome heating for the great explorers of the world, and keep on innovating to this day. Swift motorhomes are tested down to minus 15 degrees to ensure you stay cosy no matter where your journey takes you.

Swift recommend Oyster satellite TV and broadband. Permanently mounted dishes fold away neatly when travelling then raise and locate the satellite signal automatically seconds after activation. Made in Germany, they come with a 3 year warranty and there is a dedicated UK service centre.

Swift Group are proud to support a charity local to them called the Daisy Appeal. The Daisy appeal is giving loved ones faster, more accurate, diagnosis of three of the region's biggest killers – cancer, heart disease, and dementia.

The Charity's aim is to provide a world-class PET-CT scanning facility which will provide a comprehensive clinical service alongside an ambitious clinical research programme exploring new applications of imaging techniques.

Currently in the UK, most PET-CT scanning is carried out on cancer patients. However, it has great potential in various heart, neurological and other diseases. Many of these will necessitate the use of short half-life radioactive 'markers' which will need to be manufactured on site. Hence the requirement of a purpose built cyclotron, radiochemistry and radiopharmacy facility.

For every caravan, motorhome and holiday home sold, Swift Group make a donation to the Daisy Appeal, helping them to reach their goal of becoming the UK's number one PET-CT service.
