

COLUMBUS 2021

CO 600 D

LUXURY AT ITS BEST

Relaxation is what holidays are all about. Therefore we particularly focus on a comfortable and at the same time generous and convenient room layout in the Columbus. The living area in the Columbus makes an immediate impression thanks to the use of luxurious and high-quality materials. You will recognise this Westfalia quality as soon as you step into your motor home. But it will also win you over at second sight. For example, take a look at the cabinet fronts with white mirror finish. These are beautiful and their colours create a bright and homely overall impression in your motor home. The decisive factor, however, is the fact that the applied CPL material is extremely durable and cleaning is very easy, thanks to its sealed surface. There are no rattling doors, the hinges are firmly seated and the flap mechanism closes tightly, additional advantages you might perhaps not see at first sight, but they are important in helping you to relax during your holidays. Have fun!

The living area in the Columbus will win you over as soon as you see it thanks to the overall homely and cosy feeling. The combination of the different high-quality materials ensures a particularly luxurious atmosphere.

Perfectly integrated

The flat screen can be integrated perfectly into the seating of the Columbus models, it can be pulled out towards the bed and stowed away between the bathroom wall and ceiling compartment when not in use.

- 1 The seat bench in the Columbus.
- 2 The wardrobe behind the seat bench.
- 3 The lighting design in the Columbus.
- 4 Storage space in ceiling compartments.
- 5 The fly screen door.

CO 600 D

PREPARE ENJOYMENT!

Love, good food and well-being go together. For this reason you will not only appreciate the new kitchen in your Columbus, you'll love it. 'Functionality married to innovative design' would be a good title for this area of the motor home. The powerful two-burner hob is linked to a generously sized counter top where you can prepare your food in the blink of an eye. The sink with its single-lever mixer tap is located under part of the counter top. The numerous easily accessible compartments offer just the right storage space for your kitchen utensils, from dishes and cutlery to pots and pans. In addition to this you can choose from three different kitchen versions: the Compact kitchen in the Columbus 540D with 65-litre refrigerator at the front end, the Slideout kitchen in the 600D and 640E models with a slide-out cool box and the Gourmet kitchen with separate 95-litre refrigerator in the 601D and 641E models. Sophisticated and perfectly designed. These are the new kitchens in the Westfalia Columbus.

With the Columbus you can choose between the compact kitchen in the 540D, slide-out kitchen in the 600D and 640E models and the Gourmet kitchen in the 601D and 641E models.

- 1 The Gourmet kitchen in the 601 D and the 641 E.
- 2 The refrigerator can be mounted in an elevated position in the 601 D and 641 E, thus creating space for an additional wardrobe (optional).

- 3 The convenient and attractively designed sink.
- 4 The Compact kitchen in the 540 D.
- 5 The Slideout kitchen in the 600 D and the 640 E.

CO 640 E

MORE ROOM FOR SWEET DREAMS

You can also choose between two different solutions in the sleeping area of the Columbus. The rear double bed in the 540 D, 600 D and 601 D models and the single bed solution in the 640 E and the 641 E. The 540 D / 600 D / 601 D floor plan versions with a rear transverse double bed are the perfect solutions for customers who want a high degree of sleeping comfort while at the same time benefiting from the agility of a compact vehicle. The generous bed fills the entire rear area of the vehicle. It can be partly folded up and moved to the rear to increase the space behind the kitchen and also to increase the rear storage space. There also is an optional pop-up roof for the Columbus 540 D, 600 D and 601 D offering comfortable sleeping space for two people. The two floor plans in the Columbus 640 E / 641 E meet the need for more space and thus provide more sleeping comfort. Two big single beds, which can be transformed into one massive double bed by means of an insert, offer more space to dream, should you decide to opt for this floor plan version.

Take your pick from a double bed in the pop-up roof (optional in the 540 D, 600 D and 601 D), a transverse double bed or two single beds mounted in the direction of travel.

Well thought-out

The back of the bed can be folded up, creating enough space for at least two bicycles in the large rear storage compartment. If you remove the front wheels on your bicycles to reduce the overall height, then you can pack them into the large garage even with the bed folded down.

- 1 With a flick of your wrist the seat bench becomes a double bed. (Optional)
- 2 The large rear storage compartment in the Columbus.
- 3 The three-dimensional spring system of the rear bed.

- 4 The large double bed in the Columbus 600 D and 601 D.
- 5 The optional wardrobe in the Columbus 601 D or 641 E.

WELLNESS WHILE YOU TRAVEL

It is very easy to start your day perfectly in the comfortable new bathroom in the Columbus. The comfortable new bathroom reflects the well thought-out room design of the Columbus. You can easily shower here without any awkward conversion using curtains or sliding doors. Right from the start the dimensions of the space and room were designed in such a way so that a large shower tub could fit perfectly into the bathroom. With the numerous storage areas and shelves, a towel holder, the high-quality washbasin and the one-lever mixer tap you have almost everything with you that you would have at home.

No awkward modifications – just take a shower. The comfortable bathroom in the Columbus. By the way: the fresh and waste water tanks each with a capacity of some 100 litres top their class.

Tidy and convenient

The bathroom in the Columbus is perfectly thought out. Numerous shelves and storage compartments provide enough space to store your bathroom utensils neatly and near at hand.

- 1 The shower in the Columbus.
- 2 Shelves in the bathroom in the Columbus.
- 3 The shower head is of the same quality as you would expect at home.
- 4 The comfortable bathroom in the Columbus.

Floor plans:

Day

Night

Characteristics 540 D

- + compact 5.41 m dimensions
- + convenient compact kitchen
- + large rear double bed
- + optional with pop-up roof

Especially made for that!

The new Compact kitchen has exclusively been developed for the Columbus 540. It wins you over with perfectly shaped functionality.

COLUMBUS 540 D

Floor plans:

Day

Night

Characteristics 600 D

- + compact 5.99 m dimensions
- + convenient slide-out kitchen
- + large rear double bed
- + optional with pop-up roof

Still more storage space

The kitchen cabinet provides additional space to neatly store tableware, spices or ingredients.

COLUMBUS 600 D

Floor plans:

Night

Characteristics 641 E

- + compact 6.36 m dimensions
- + luxurious Gourmet kitchen
- + optional wardrobe under the counter top
- + two large single beds

COLUMBUS 641 E

- 1 The movable and foldable motor home beds offer more variation and space.
- 2 The innovative Westfalia seat bench. With a flick of your wrist the comfortable seats become...
- 3 ... a bed with separate sleeping area.

Innovative

Folding seat bench and separate bed system integrated into the back of the seat bench. (not available for Columbus 540 D)

- 4 The hot water system with separately controlled heating circuits for both the heating system and hot water.
- 5 The slideout cool box with coupled locking system on the lid, to ensure that it automatically locks and opens when driving off or stopping.

WESTFALIA QUALITY

More than 60 years ago, Westfalia built the first motor home in Wiedenbrück. Over 60 years of experience and more than 60 years of passion – you are the one to benefit from both when you decide to buy a Westfalia motor home. Westfalia motor homes are carefully thought out down to the finest detail. They win you over with their road capability and practicality. Also and especially because our employees are just as enthusiastic about motor homes as you are. If the existing functionalities do not satisfy our needs, then we look for better solutions, for innovation. As for example with the Columbus. This premium panel van includes four patented features, four detailed solutions to win you over that are only found in a Westfalia. See for yourself!

Westfalia quality in manufacturing motor homes has now become legendary. The long experience and passion of our employees make every Westfalia what it is: a masterpiece.

WESTFALIA INNOVATION

The Westfalia Columbus is a real milestone. It impresses through its automotive quality, its fresh design and a convincing concept. The warm water heating and the fact that 4 Westfalia patents can be found in this campervan are added proof: Westfalia means innovative premium quality.

For the new season you can expect even more innovations in the Columbus. For the first time in its class, Westfalia offers an electric pop-up roof and for batteries that are always topped up there is the optional perfectly integrated solar panel for the pop-up roof with more than 350 WP. In addition, the new optional „Skyview“ panoramic roof gives you more light inside and offers a very airy feeling in the dinette area of the Columbus.

Westfalia developed the new solar panel together with a leading German technology institution, the Fraunhofer Institute. With 350 WP, it's the best in its class!

Sky View

The new large „Skyview“ panoramic roof lets you take in the surroundings more intensively. The living area is brighter and feels even more welcoming.

At time of printing. For technical printing reasons, the colours shown may vary from the original.

All prices inclusive of the statutory VAT as on August 2020. Subject to modifications. Prices excluding handover inspection and transportation costs.

The General Terms and Conditions of Westfalia Mobil GmbH shall apply. No liability is accepted for printing errors and mistakes. Subject to technical changes. Vehicles are partly shown with optional extras, which do not correspond to the standard equipment (refer to article 2, clause 2 VO (EU) 1230/2012).

A purchase contract can only be concluded with your binding order and the order confirmation of your dealer. The water supply system at least corresponds to standards practices 07/2011 (Directive 2002/72/ EC).

Subject to changes in price, technical details, facilities and equipment, as well as design concept. The information about the scope of delivery, appearance and performance corresponds to the knowledge available at the time of printing. Deviations of +/- 5% are possible for dimensional and weight data, even in running order, and the technically permissible total mass.

As per art. 2, clause 4 a) VO (EU) 1230/2012, the mass in running order is, unless otherwise specified in the catalogue, in the price lists or in the technical specifications, or unless otherwise agreed upon with your seller, defined as: The vehicle mass with the standard equipment as per manufacturer's specifications incl. driver (75 kg), fuel tank filled up to 90 %, systems containing fluids filled up to 100 % (annexe V, clause 2.6, footnote (h) VO (EU) 1230/2012) as well as, if available, the trailer equipment, the mass of the spare wheel and of the tool.

Special equipment (additional equipment) and accessories increase the mass in running order and reduces the cargo load. Cargo load as per the catalogue specifications is defined as: Difference between the technically permissible total mass and the mass in running order. Refer to our prospectus or ask your dealer/seller for the weight of the special (additional) equipment and of the accessories.

The maximum permissible number of persons given is dependent on the weight and axle load. It can be reduced as a result of the installation of special equipment (additional equipment) and accessories, so that individual seats cannot be used in favour of load-carrying capacity. If all seats are supposed to be used, payload must be properly adjusted. The technically permissible total mass as well as the axle loads must not be exceeded.

The load-carrying capacity may be reduced as a result of the installation of special equipment (additional equipment) and accessories. The minimum cargo load must be adhered to at all times (refer to annexe I, clause 2.6.4.1.2 VO (EU) 1230/2012). The minimum cargo load is calculated as follows: Minimum cargo load in kg = (vehicle length in meters + maximum number of co-passengers + driver) x 10. Moreover, the load-carrying capacity is not only dependent on the mass in running order, the actual vehicle mass (article 2, clause 6 VO (EU) 1230/2012), the weight of the accessories and the technically permissible total mass, but also on the respective axle loads. In order to utilise the maximum load-carrying capacity of the vehicle requires axle-dependent load distribution. This must be verified before commencing every journey. Even all other regulations necessary for the safe operation of the vehicle must be adhered to when using the vehicle.

Mass and weight data is specified in accordance with VO (EU) 1230/2012 unless deviating regulations are made in the catalogues, price lists or the technical data.
