Welcome to Swift UK's No.1 brand for leisure vehicles

We are the UK's largest leisure vehicle manufacturer, producing touring caravans, motorhomes, campervans and holiday homes.

We've grown from simple foundations back in 1964, when our founder Ken Smith built his first touring caravan, to become the UK's number one leisure vehicle brand.

Our philosophy is to build leisure vehicles that are at the heart of your holiday, whether that be nestled in the countryside or by the sea, searching out active pursuits or simply enjoying a quieter pace of life. With a lifetime of memories waiting to be made, it's time to find your ultimate motorhome.

Join the Swift community - search Swift Group or scan the QR code to connect with like-minded adventurers where innovation meets the open road!

Introducing The Swift Difference

There's no better feeling than stepping into your motorhome for a relaxing getaway. We've dedicated countless hours of research and development to ensure that every detail of your motorhome is built to last and luxuriously comfortable, so you can get on with the important things in life – creating memories and enjoying unforgettable holidays.

Only when you choose Swift can you enjoy this exclusive package of benefits, as part of our Swift Difference.

Check out our guides,
articles and features!

SMART construction

The UK's leading modern construction system with 'PURE' timberless framing that's impervious to water.

Efficient living

Swift motorhomes are engineered with efficiency at its core - from aerodynamic exteriors to low energy LED lighting and dual fuel systems to onboard water tanks.

Long term warranties

Extra reassurance with multiple warranties including an industry leading 10 year bodysell warranty on coachbuilt motorhomes.*

*Terms and Conditions apply

Supreme comfort

Enjoy an exceptional night's sleep with a Duvalay mattress fitted to all fixed beds and exclusive to Swift.

All year freedom

Swift motorhomes are tested to the extreme in a cold chamber to ensure they achieve the Grade 3 thermal insulation rating. The internal temperature can be maintained at 20°C while the external temperature is as low as -15°C, so you can stay warm and comfortable whatever the weather.

My Swift Life

My Swift Life provides owners with a unique personal profile, where you can access information that's specific to your motorhome, including; outstanding warranty claims, service information and direct link into our Swift Customer Experience Team.

Expert training

Launched in 2015, the Swift Academy helps employees develop skills at every career stage, supporting their growth and showing our commitment to their development.

Extensive choice

With a variety of models across our motorhome ranges, there is a huge choice to suit most budgets and tastes – and all supported by the UK's largest dealer network. A large proportion of Swift Motorhomes can also be driven with a standard driving licence.

Pioneers

Innovation is our passion. We use advanced design to ensure our products look great, work intuitively, and function efficiently. Swift Command* allows easy control of onboard systems via a touchscreen panel and smartphone app.

*Range specific

Standing the test of time with **SMART Construction**

As a leader in the leisure vehicle industry, we continuously innovate to raise the bar. SMART combines advanced materials and construction for better structural integrity, insulation, and weather resistance - ensuring your motorhome stands the test of time and retains its value.

Strong

The strong timberless body frame uses 'PURe', a tough, hard polyurethane based product, that is totally impervious to water and has been proven through use.

Modern

SMART uses advanced materials and cutting-edge technology to ensure our motorhomes maintain their modern, stylish looks.

Aerodynamic

We continue to lead the way in aerodynamics using Computational Fluid Dynamics to help shape the bodyshell for better fuel consumption.

Resilient

Our side GRP outer and inner skins are more impact resistant than aluminium and can be easily repaired, ensuring long lasting good looks, securing your investment for the future.

Tested

Extensive testing at Millbrook track and in cold chambers down to -15°C ensures our prototypes endure conditions beyond what most products face in a lifetime.

'PURe' Polyurethane framework

The strong timberless body frame uses 'PURe', a tough, hard polyurethane based product that is totally impervious to water, ensuring the longevity of your motorhome.

Polystyrene core

For ensured accuracy, lightweight polystyrene is cut to shape using the latest water jet technology. With 28mm polystyrene used in the side walls and roof, all Swift motorhomes meet the Grade 3 thermal properties needed for year-round adventures.

GRP

Manufactured at Swift, our GRP (glass reinforced plastic) front and rear panels are robust and resilient. The side panels feature outer and inner GRP skins of the same thickness to create a balanced panel which allows the motorhome to expand and contract in different climatic conditions.

Unlike other manufacturers, our GRP inner skin does not use any jointing tape - all Swift motorhomes have a jointless sealing in the walls, and are embossed with wallpaper finishes.

Roof

The hail-resistant roof's outer layer is fully bonded with woven white GRP. All Swift motorhomes feature reinforced roofs for added features like air conditioning and satellite dishes (model specific).

Polyurethane framework

Polystyrene core

GRP inner skin

GRP outer skin

Floor

Each Swift motorhome floor features black woven heavy-duty GRP to the underside which is insulated with 35mm Ravatherm, while the inner layer is manufactured from 9mm light, yet robust plywood, to provide strength to the floor.

VOYAGER

Built on a reliable Ford chassis for travelling peace of mind, the award-winning Voyager returns for 2026 with bold new exterior graphics that give it a confident, modern edge. Inside, refreshed soft furnishings elevate the sleek and refined interior. Designed for families who love to explore, Voyager maximises space without compromising on style or on-board amenities.

Layouts at a glance

When selecting the ideal motorhome layout, it's crucial to prioritise functionality and comfort to ensure a fulfilling travel experience. Start by considering the number of travellers and their individual preferences, including sleeping arrangements and desired amenities.

Front lounge layouts offer versatile seating and sleeping options, making them suitable for couples or small families seeking adaptability. Alternatively, rear lounge configurations provide expansive living areas with panoramic views, ideal for those prioritising relaxation and scenic enjoyment.

- F

Front lounge bed
- LU

Luton bed
- I

Rear Island bed
- C

Rear corner bed
- R

Rear lounge bed
- S

Single beds
- D

Drop down bed over lounge
- Drivable on standard Cat B licence
- O

Optional extra

Island bed and corner bed designs prioritise easy access and comfort, while drop down beds optimise space without compromising lounge areas.

Classic motorhomes emphasise manoeuvrability and everyday usability, making them ideal for adventurers seeking versatility.

Assess storage options, bathroom and kitchen facilities, and overall liveability to find the perfect layout tailored to your unique travel preferences and needs, enhancing your journey with comfort and convenience.

Fabrics at a glance

We follow research insights and trends to keep ahead of the designs that appeal to both today's and tomorrow's customers, while also taking the time to understand what design aspects are important to you and your holiday lifestyle.

Today's trends involve a higher degree of ecological and environmental considerations, and at Swift, we share these values in our design and manufacturing decisions. We aim to replicate the natural world in both colour and material choices across all of our products.

Keeping on top of the trends through observation and research, we have seen a shift towards bolder accent colours as well as with colour palettes embracing warmer and softer earthy hues.

Voyager

The Voyager range is fitted with the Slate soft furnishing scheme which have stain resistant properties and are easy to clean.

Trekker

The Trekker range is fitted with the Aquaclean® Alba soft furnishing scheme featuring stain resistant, easy to clean fabrics.

Escape

The Escape range is fitted with the stain resistant, easy to clean Aquaclean® Bolonia soft furnishing scheme. Its light stone colour evokes a natural ambience.

Kon-Tiki

The Kon-Tiki range is fitted with the Ultraleather® Lentil soft furnishing scheme. This vegan leather is easy to clean and stain resistant, combining style and practicality.

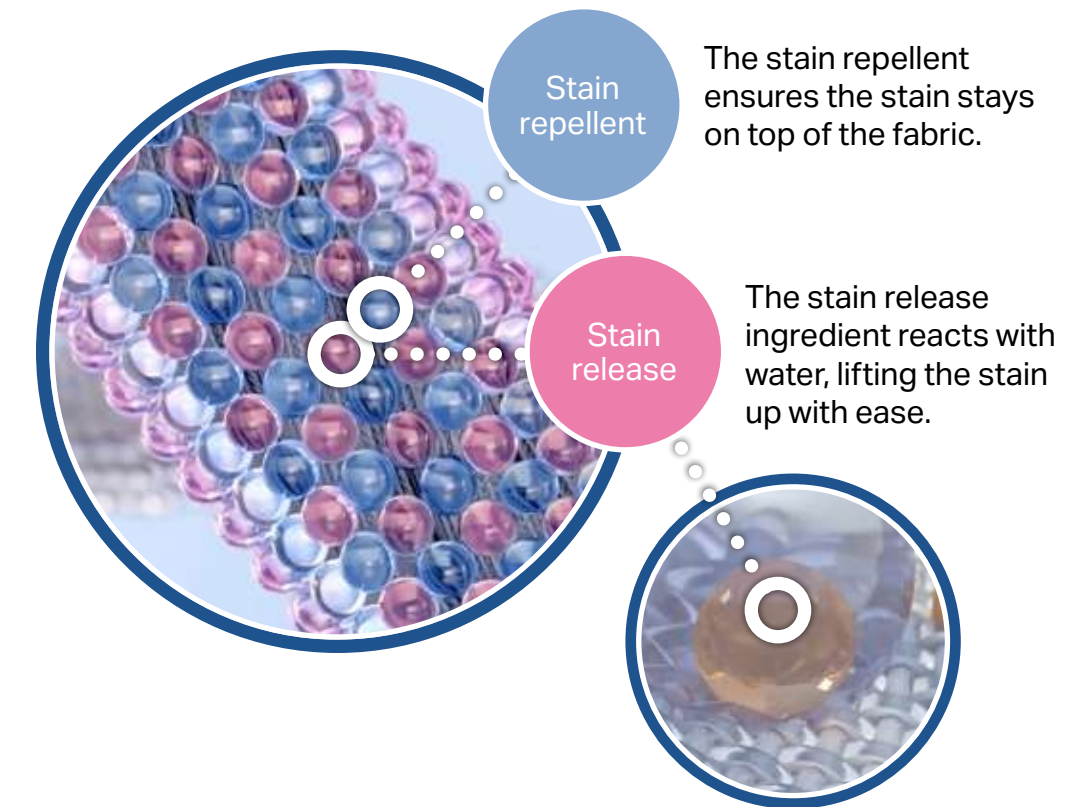

aquaclean[®]

fabrics for living

At Swift, we believe your holiday should be all about relaxation, enjoyment, and making lasting memories. That's why we've chosen Aquaclean® technology for our Trekker and Escape motorhomes - an innovative fabric treatment that keeps your upholstery looking immaculate with minimal effort. With Aquaclean®, cleaning stains like wine, ink, sauce, or mud is as simple as using water, meaning no harsh chemicals are needed.

This advanced technology ensures that dirt and grime stay on the surface, making clean-up quick and easy, so you can spend more time enjoying your travels. Whether it's a cosy family dinner or a spontaneous snack on the go, Aquaclean® keeps your motorhome's interior looking fresh, ensuring a hassle-free experience.

Backed by over 50 years of fabric expertise and trusted by over 3 million families worldwide, Aquaclean® fabrics combine quality with convenience. By choosing a Swift motorhome, you're not just selecting a vehicle, but a lifestyle of ease and comfort. With Aquaclean® fabrics, you can enjoy stress-free holidays, knowing your upholstery will stay as beautiful as the day you set off.

See how it works!

d. personal effects (those items not covered by the above)

2. The Mass in Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver plus engine coolants, Adblue & windscreen washer fluid @100% full, fuel tank @ 90% full and 11kg allowance for LPG.

3. The MRO is calculated with the fresh water tank empty. If you travel with water in the fresh water tank then the payload will reduce accordingly.

4. Please take care to ensure that you have allowed for the masses of all items you intend to carry in the motorhome, e.g. passengers, optional equipment, essential habitation equipment and personal effects, such as clothing, food, pets, bicycles, sailboards, sports equipment etc.

5. **Warning - under no circumstances should the maximum technical permissible laden mass of the motorhome be exceeded.**

6. Caution - When fitting a tow bar, it must meet certain minimum requirements as specified by Type Approval Regulations. The bar will have marked on it the approval standard (94/20/EC or 55R ECE) and the maximum download, or nose weight, that it can accept. It must fit the manufacturer's approved mounting points and must not obscure the towing vehicle's number plate.

7. Note - the additional weight of the tow bar and trailer nose weight increases the rear axle loading of the motorhome so care should be taken that the rear axle load is not exceeded when towing.

8. To ensure adequate road holding, the load on the front axle, under all conditions must be not less than 40% or more than 70% of the total weight.

9. Care must be taken when distributing loads. The loadings above are maximum loadings and must not be exceeded under any circumstances.
- # The maximum trailer weight is limited by the gross train weight which must not be exceeded. For example if the vehicle is at the maximum MTPLM of 3700kg, then the maximum trailer weight possible is 1800kg. Reducing the weight of the vehicle by removing payload, will allow you to increase the trailer weight up to a maximum of 2000kg. If you are unsure please check with your local dealer the towing capacity of your vehicle.

‡ MRO increases by 30kg on automatic options. Payload decreases by 30kg on automatic options.

△ Auto Option upgrade on 574 increases MTPLM to 3550kg and requires a Cat C1 Licence. Max user payload increases by 20kg.

*Estimate ^Option **Requires annual subscription

+Based on standard specification. 475 and 485 models are available at 3500kg with four travelling seats.

More control with Swift Command

Available on our Kon-Tiki range, Swift Command puts you in control of your onboard systems via a touchscreen panel and smartphone app. Use Bluetooth when nearby or your internet connection remotely to monitor power, temperature, humidity, and your vehicle’s location. You can even control the heating for a warm welcome on colder days. The app also lets you set alerts for key functions like battery levels, frost warnings, and alarm status.

Head to the Apple or Android store and search for ‘Swift Command’.

For more peace of mind, enhance your vehicle’s security with the Thatcham Category S7-approved Swift Command Tracker by Sargent. Monitored 24/7 with European coverage and direct police liaison, the system is ready to use - just activate it by purchasing a subscription at www.swiftcommand.co.uk or by calling Sargent on 01482 881655.

Power
Track your energy use and manage your batteries for efficient use of your all important power services.

Lighting
Create just the right ambience onboard with easily adjustable lighting settings.

Location and remote features
Remotely connect to your leisure vehicle to check its location and system status. You can also control and monitor onboard services while away from your vehicle.

Water
Keep an eye on your precious water levels so you know in good time when to top-up.

Heating
Activate whilst out exploring and enjoy the warmth when you get back.

Fridge
Track your energy use and manage your batteries for efficient use of your all important power services.

Introducing the All NEW Truma CombiNeo

Available on our Voyager and Trekker motorhome ranges, experience unparalleled comfort on your travels with the Truma CombiNeo, a 2in1 heater designed for caravans and motorhomes. Combining rapid room heating with exceptional hot water output, the CombiNeo ensures your living space is warm and your showers are endless* - no matter where the road takes you.

- Endless Hot Water*:** Enjoy long, relaxing showers after just 8 minutes of heat-up time.
- Quick Warm-Up:** Hot water ready in just 3 minutes for washing hands or dishes.
- Efficient Heating:** Fast and energy-saving heating of your living area.
- Flexible Power Options:** Operates on gas, electricity, or hybrid mode for maximum convenience.
- Quiet Operation:** Particularly quiet and emission-free in electric mode.
- User-Friendly Control:** Easily manage settings via the Truma iNet X panel or associated app.

*Endless hot water within appliance limits and conditions. See camp.truma.com/en/combineo/ for details.

Enjoy a world-class heating system

Available on our Escape and Kon-Tiki ranges, the Alde heating system delivers quiet, even warmth through hydronic self-convection, eliminating cold spots and ensuring all-season comfort.

Built in Sweden and tested to -35°C, it's compact, low-maintenance and runs on LPG, electricity or both - ideal for off-grid or campsite use. Premium features like underfloor heating, towel rails, and hot water boosters add luxury, while the intelligent control system optimises energy use and temperature. With a discreet design, Alde makes your motorhome feel like home - wherever you are.

Get personal with My Swift Life

My Swift Life is now available to all Swift caravan, motorhome and campervan owners* providing owners with a unique personal profile, where you can access information that's specific to your caravan or motorhome, including; outstanding warranty claims, service information and a direct link into our Swift Customer Experience Team.

Log in to My Swift Life and report minor faults directly to Swift, enabling us to work together and allowing us to respond more quickly to your needs.

Our platform hosts a variety of information, including product notifications, customer bulletins, product recalls and upgrades, as well as important notifications about our products and services.

Using My Swift Life, you can also view chargeable orders that have been placed on your behalf, by your Swift dealer or servicing provider, along with any outstanding warranty claims from the date of ownership.

What's more, you'll have access to useful tips and our comprehensive "How To" video library, designed to help you familiarise yourself with your Swift caravan or motorhome.

* Available to UK registered customers only.

Join My Swift Life for all this and more

- Access to useful "How To" video guides
- Access to personalised information 24/7
- Ability to report minor faults directly to our Customer Experience Team
- Authorised claims passed directly to dealer to speed up the warranty process
- Product upgrades notifications
- Live messaging direct into Swift's Customer Experience Team
- Upload service history records
- Useful bulletins and alerts
