EXCELLENT SERVICE QUALITY

FOR PURCHASES MADE WITH COMPLETE PEACE OF MIND

FLEURETTE ASSISTANCE :

24 hours a day, 7 days a week, in France, abroad or at home, a team of trained on-line motorhome troubleshooting and assistance engineers are available to reassure you and assist you whatever happens.

Services free-of-charge in the 1st year for all new Fleurette* and Florium* motorhomes.

To find out more about our assistance service, visit www.fleurette.fr and www.florium.fr.

WARRANTY AND SERVICES:

**After 12 months, you will be asked if you wish to continue the service (value as at 01/01/2018 = 200 € TTC)*

Some models presented in this catalogue may be shown with optional equipment. Non-contractual photos: stylistic elements, décor and accessories not included. Since part of FLEURETTE CONSTRUCTEUR production is intended for export, the technical characteristics of the models may vary from one country to another; for an exact definition of the models marketed, please consult your dealer. FLEURETTE CONSTRUCTEUR reserves the right to make modifications to its models without notice. Despite the care taken in the production of this catalogue, it cannot be taken as a contractual document.

SOPHISTICATION MADE IN FRANCE

Our customers have been inspiring us for 50 years, we never tire of listening to their wants and needs to improve our models.

This is a common attribute found in many companies in the Vendée, the ability to carry on and develop savoir-faire and expertise thanks to teams that share the same sense of customer satisfaction. That's why we look beyond our industry to those such as the hotel industry for style, catering for practicality and sailing for designer fittings in a polyester cocoon.

This work is what helps us create sophisticated interiors and high-performance technical bodywork that ensures every trip you take is a success.

FLORIUM

The leader in premium motorhomes in France

Resolutely looking to the future, our teams carry on our company's 50 years of Made in France craftsmanship, from our first Super folding caravans right up to our latest 80LMF A-Class model. The recipe has never changed, based on pioneering techniques and hand-made design to satisfy the most exigent customers, combined with major investment in the production chain in the form of a design office of creative talents.

European group Rapido, a leader in the today's market for motorhomes, mobile homes, fitted vans and vans with elevating roofs. We share with the group the values of a family business: proximity, quality and innovation for French customers and their European neighbors.

2018

Over 50 years
of shares
emotion

1967

Jean-Lucas creates the first folding caravan, the Super or "Petite Fleurette"

1977

Production of the first on-demand motorhome with a choice of designs

1980

Creation of the rigid folding caravan. It is equipped with assisted unfolding with automatic locking

1986

Presentation of the first "river permit" boat, the LUCAS 1000

1993

Launch of the first range of low-profile models

2007

Launch of the first low-profile Fleurette, Discover

2010

Launch of the Florium contemporary line

FLEURETTE
CONSTRUCTEUR

Our experience and customer focus have enabled us to adapt to the changing times. This vision led us in 2016 to broaden our horizons with the manufacture of fitted vans for the WESTFALIA brand, which the group acquired in 2011. And, to accelerate even faster, we decided to launch a new industrial project with the construction of a new production plant in Benet (Sud Vendée), which will be home to high-tech joinery and dedicated assembly lines. This enables us to create a link between the past and the future, training new teams every day, patiently passing on our love of good craftsmanship.

Motorhome 100% POLYESTER, the best in technology

FLEURETTE CONSTRUCTEUR is, today, the only manufacturer in Europe to offer 100% polyester vehicles, produced entirely in our factory in the Vendée.

Equipped with a new unique workshop in Europe, we produce our motorhomes' bodywork to the same high traditional standard as top-class boats, thanks to our in-house specialists.

High-quality raw materials:

Our polyester composite is made up of three elements:

- The "high-tech" gel coat, a thermosetting resin-based covering, sprayed into our moulds, creating the smooth and coloured surface of pieces. It is used to provide a high finish and act as a varnish.
- The fibreglass lining is a material with structuring properties which ensures mechanical strength.
- A resin matrix, a material resistant to damp conditions, which extends the bodywork's lifespan.

The result is bodywork that is fully protected against weather risks, such as UV rays and hail.

The advantages of 100% polyester bodywork:

- Aesthetic and shiny bodywork
- A smooth and glossy appearance that doesn't change over time
- Repairable material
- A solid, anti-hail living area thanks to 3 mm thickness
- Optimum insulation provided by athermal material

Polyester storage area gates:

this moulded polyester panel also helps absorb the impact of handling tables, chairs, bicycles, etc. Our storage areas are insulated using our sandwiching technology and carpeted inside for your comfort.

JOINERY fitted expertise passed on through generations

For 50 years, the Fleurette Constructeur joinery teams have been dedicated to continuing traditions in order to offer elegance, robustness and a high-quality finish for our motorhomes.

As joinery is historically a Fleurette Constructeur's expertise, we take great care over the joinery work for our vehicles, bringing you unique settings and interiors, and continuing the leitmotiv of artisanal cabinetmaker Jean Lucas, who founded the brand in 1967.

Today, combining industrial performance, digital order processing and artisanal craftsmanship, the joinery team draws on its skills and a wide variety of processes, working together to relentlessly enrich the layouts of our motorhomes.

A design office dedicated to sophistication and elegance

Thanks to high-performance design software, our developers work every year to bring you new layouts and ingenious designs that reflect your lifestyle.

Pear Tree Woodwork (for Fleurette)

Cedar Woodwork (for Florium)

Elm Woodwork (optional extra for Florium Winchester only)

furniture in our vehicles

FLEURETTE

The ONLY assembly method of its kind in EUROPE, by Fleurette Constructeur

Drawing on its experience in vehicle assembly, and continually focused on producing the best equipment, Fleurette Constructeur has developed an exclusive procedure: Recovery System.

A recovery assembly system that is more resistant than end-to-end assembly, guaranteeing perfect waterproofing.

The roof and polyester rear superimposed without contact onto the sandwich panel create an effective thermal barrier.

Polyester skin on the roof, which retains its shape and is resistant to the impact of hail

The back side covers the roof and sides

Full-width unfolding storage area for optimized storage. Upholstered and heated for better insulation.

Reinforced extension frame in galvanized steel: designed to support large weights and optimize your towing capacity. Our water tanks are fitted to the middle of the chassis for better load distribution.

Double-joint polyester gate guaranteeing perfect waterproofing of the storage area.

The bottoms of the cab are attached to the lateral panels. They are easy to repair in the garage.

The hood is installed as a covering for the roof and sides

Wraparound panoramic wide-angle windscreen, increased visibility for your safety

Flush bay improving the thermal insulation and security of your vehicle (cannot be removed from the outside)

All the materials in contact with the exterior are rot-resistant and create a watertight shield that enables us to offer you a 5-year watertightness warranty, **including 3 years without follow-up inspection**. To ensure that this guarantee is as effective as possible during these 5 years, a watertightness check will be requested at the start of the 4th and 5th year.

Watch our video about the production of our insulating linings

SOLIDITY and increased resistance with optimized insulation

The structure of our vehicles guarantees a high level of production for optimum insulation, increased resistance and reinforced protection.

With its polyester coating under the chassis, it guarantees the underfloor watertightness of the vehicle

The insulating XPS Styrofoam (30 mm of Styrofoam in all of our walls and floors) has high thermal and acoustic insulating properties, water-resistance and renowned lightness.

The fibre composite/wood combination strengthens the structure of the walls and floor, combining the long-lasting properties of the composite with the exceptional solidity of solid wood.

Polyurethane strip

Polyester

Styrofoam

Wooden strip

Trademark construction by Fleurette Constructeur

50 years of experience in protecting your motorhome:

- Against infiltrations, thanks to our exclusive production process and piercing-free covering assembly.
- Against storms thanks to the use of polyester, with its anti-hail effect and protection against small bumps, gravel, UV, the impact of bad weather on the roof and walls, and protection against salt under the floor.
- Against heat, cold and noise, thanks to the use of polyester and our Styrofoam insulation.

Elevating roof:

The Fleurette Constructeur elevating roof enables you to install and protect all your accessories without adding extra bulk to your roof. No nasty surprises for toll barriers and optimum air circulation.

Aluminium inserts in the panelling ensure the perfect stability of the structure and furniture (150 hard points on average).

FIAT CCS CHASSIS

because your safety is essential

Designed and produced for motorhomes, and an indisputable market leader, the FIAT CCS chassis offers the ideal foundations for producing manoeuvrable, reliable and robust motorhomes.

- Anti-roll bar on the front and back for increased stability.
- Special reinforced motorhome tyres.
- Extra-wide rear track for better handling.
- Chassis lowered by 15 cm to allow for the passage of fluids under the floor.

The FIAT CCS chassis is installed as standard on the Fleurette Migrateur/Florium Baxter and Fleurette Magister/Florium Mayflower ranges.

The range of Multijet Euro 6 engines from 130 CV to 180 CV offers increased performance thanks to an excellent weight, consumption and emission ratio.

Throughout the range:

- LPEGR technology (Low Pressure Exhaust Gas Recirculation) for reduced emissions
- GSI (Gear Shift Indicator) which prompts the driver to change gear and helps optimize driving.

AL-KO

A top-of-the-range model, the innovative design of the AL-KO AMC CHASSIS offers increased security, better handling and unrivalled driving comfort. Your motorhome handles better thanks to a lower centre of gravity and optimized usable load.

COMFORT AND DESIGN

for your daily well-being

TOUCHSCREEN-CONTROLLED HEATING FOR YOUR MOTORHOME

Touch screen-controlled heating for your motorhome Truma Combi Heating owes its success to the fact that it is compact, effective and reliable. It combines hot water and heating in a single piece of equipment and has for many years been the top-selling motorhome heating system on the market. Every year, Truma redevelops its systems to remain the most innovative brand in Germany.

- Operates on gas and electricity as an optional extra.
- Operates on gas and electricity
- Air and water are heated with 97% efficiency using 1800W electric resistance heating.
- Collision sensor that cuts the gas in the event of an accident.
- Exists in two systems, Combi 4 E (4000 W), Combi 6 E (6000 W). The Truma EH makes it possible to use the heating on 220V.

STUNNING FURNITURE

with spacious integrated storage solutions

LUXURY BEDDING

Because "good sleep means good health", we wanted to offer you maximum comfort for the 2019 collection.

All of our central mattresses are made from 35kg/m² density soy-based Evoluflex foam, combined with a slat base. Features:

- 12 cm highly durable foam panel
- 150 g/m² hypoallergenic filling
- anti-acarid jersey equipment on both sides of the bed
- adapts to your morphology

To add a finishing touch of comfort, our vehicles with central beds come with a rug to make you feel even more at home.
