# BIRTH OF A LEGEND

The Volkswagen Kombi: the culmination of every desire and the on-road symbol of our history. This was the first vehicle ever fitted out by Westfalia in 1951.

The memories...It was a great mobile hotel thanks to its comprehensive, quality fittings! The Kombi was an instant hit and even spread beyond continental Europe to penetrate the American market.

These models of yesteryear based on studio and 1-, 2- and 3-bedroom apartments are now among the most sought after used vehicles in the world, with their value exceeding their original retail price!

And today the story continues with the improved onboard living still based on the cornerstones of freedom and independence.

*Over 70 years of  
Westfalia quality*

## **Note to readers:**

At the time this documentation is being printed, Ford has not yet unveiled its new chassis.

While awaiting the new base vehicle, and with the environment in mind, we have decided not to show the Kelsey model on the Ford base vehicle in this 2024 catalogue.

Details of the current Kelsey can be found in the 2023 catalogue.

**1844:** Start of the Westfalia history in Germany with the foundation of a forge.

**1951:** Development of the first Westfalia camper-van on the Volkswagen T1.

**2005:** Acquisition of the Fleurette Constructeur company and later the Westfalia company by the Rapido Group.

**2016:** Launch of the Kepler and Jules Verne models.

**2022:** Introduction of the Kelsey model.

# KEPLER ONE

Westfalia fits out Kepler One campervans using a Volkswagen base vehicle. The Kepler One is undoubtedly one of the brand's flagship models and enables families to enjoy travelling in any season.

Kepler One's main selling point has to be its autonomy, thanks to its toilet area where a cassette toilet and hot water system let you stay anywhere you wish, even far from camping facilities. Like the powerful heating (a standard feature as well), the hot water system is an essential feature for travelers and active campers who do not want to be restricted to travelling just in good weather.

*Ideal for family  
holidays*

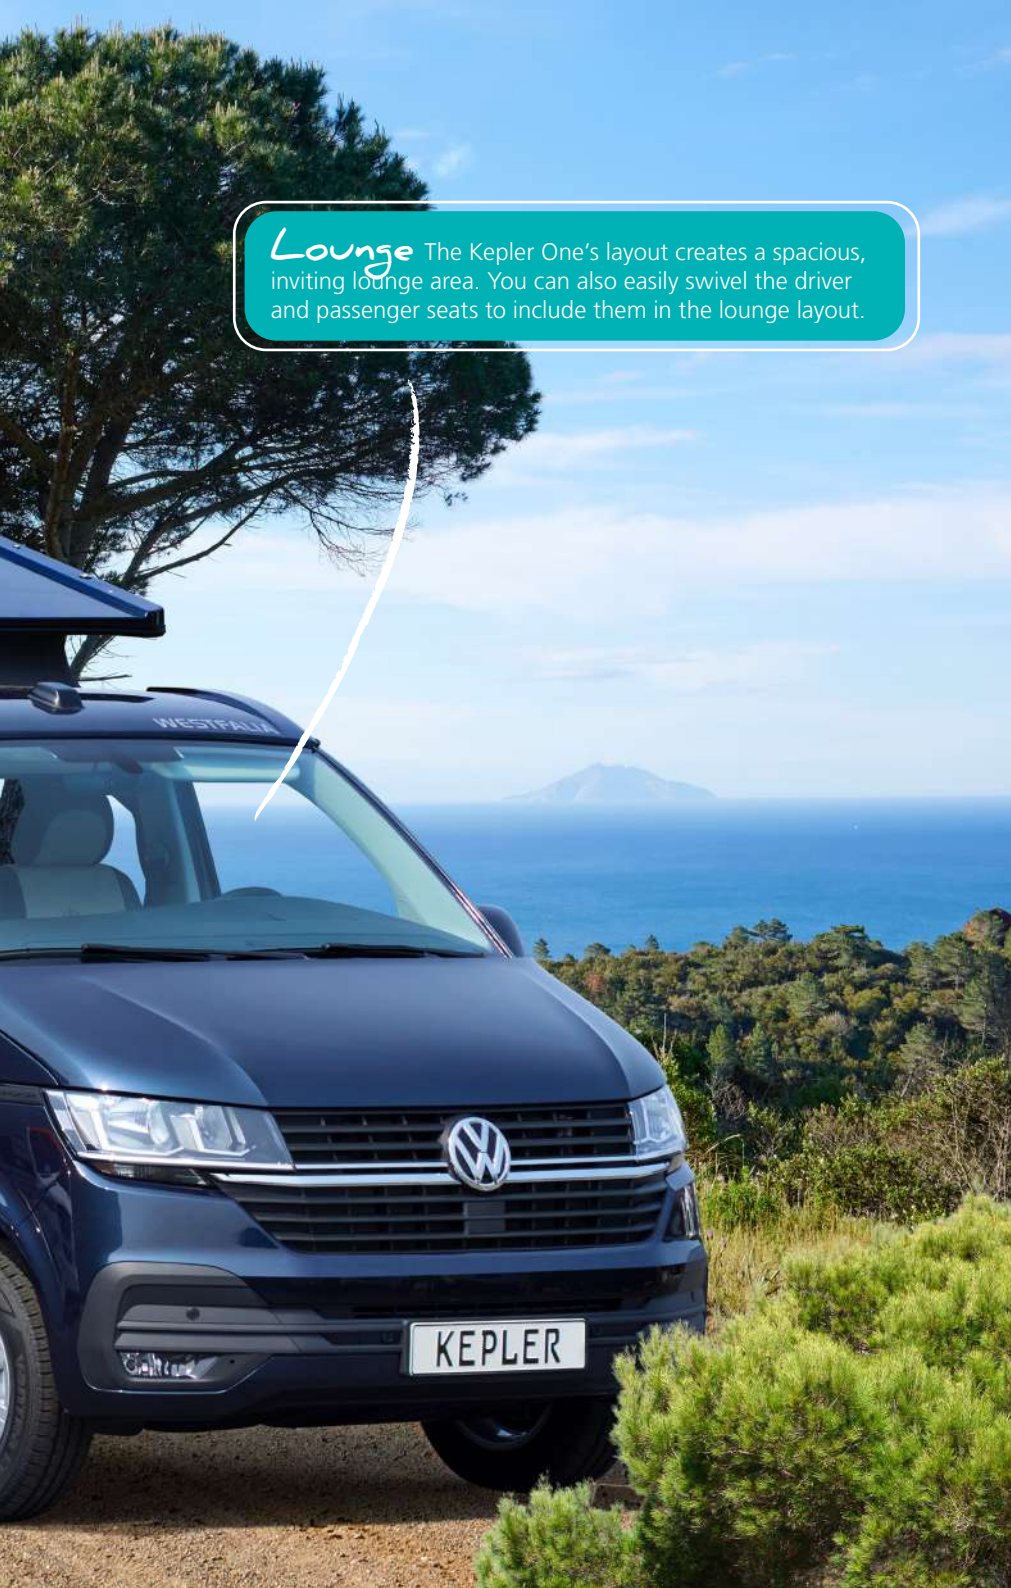

Born in 1571, Johannes Kepler was a German astronomer famous for asserting that the Earth revolved around the sun and for discovering that the planets do not follow perfectly circular trajectories as they orbit the sun, but instead follow elliptical trajectories. Kepler discovered the mathematical relationships (Kepler's laws) that govern the movements of planets in their orbit.

**Kitchen** The Kepler One boasts a functional kitchen with a 2-hob gas stove, 51-litre refrigerator, sink, worktop, and plenty of storage compartments.

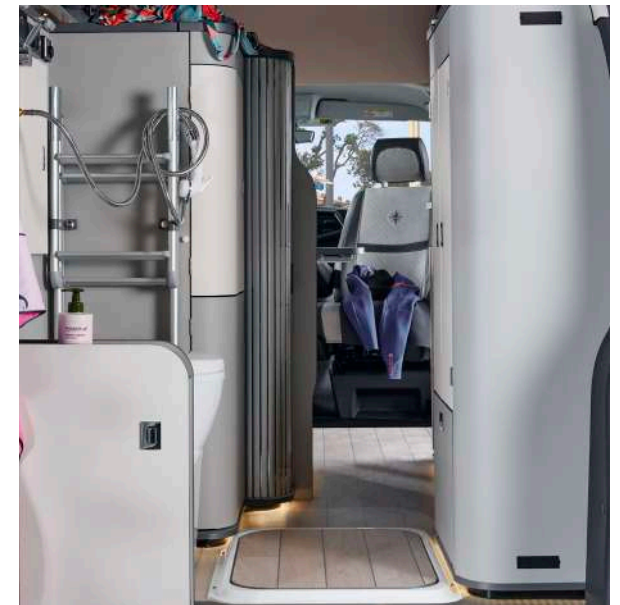

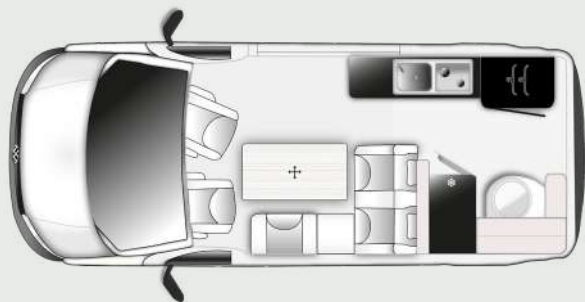

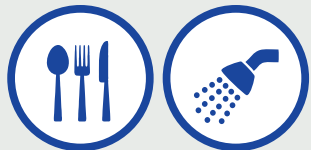

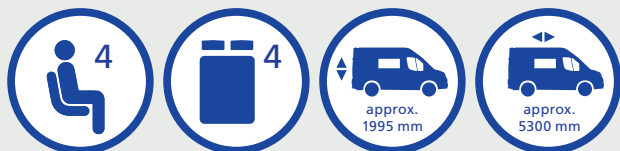

**Lounge** The Kepler One's layout creates a spacious, inviting lounge area. You can also easily swivel the driver and passenger seats to include them in the lounge layout.

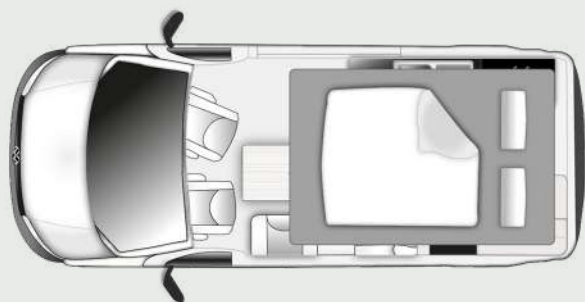

**Social:** the L-shaped bench seat lets one extra guest sit around the table, which has a reinforced leg. Shown here with the 'Montana' upholstered seats.

Day layout

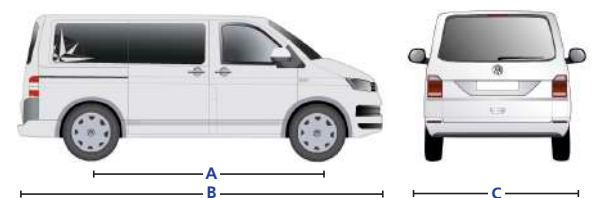

Night layout

Chassis	Volkswagen Transporter T6.1
Diesel engine as standard	2.0-litre TDI /110 kW / 150 hp
Gearbox	7-speed DSG automatic gearbox
Transmission	Traction

## FEATURES

- Outstanding driving comfort with the Transporter Volkswagen T6.1
- Everyday and town use with its low height under 2 metres
- Hot water and heating as standard
- Permanent space to move around
- 50-litre fresh water and 36-litre waste water tanks
- Optional 4Motion and differential lock

### Kepler One - measurements

A:Wheelbase	3400 mm
B:Length	5300 mm
C:Width	2297 mm
D:Height	1995 mm

Presented here with the 'Missouri' fabric as standard.

# DISTINCTION & DISCRETION

The Kepler One stands out with its wonderful space and interior style, while its under 2-metre length enables it to reach places that other recreational vehicles find hard to get through.

In addition to its car-style design, the Kepler One is decidedly a unique recreational vehicle boasting everything you need while giving you complete freedom of movement.

Thanks to its long wheelbase, the Kepler One features a large, convertible dining space. It can be converted to a double bed using removable mattresses, bringing the total number of berths to four.

**Clever!** Unclip the table from its base to easily store it in the side door.

Our shower trays are high quality as they are polyester composite (not plastic) and hand-made at our French factory.

# KEPLER SIX

No other model in the range illustrates the concept of freedom as well as this campervan. Whether you are travelling with 2, 3, 4, 5 or even 6 people, your campervan can adapt to your lifestyle.

Kepler 6, the most flexible van in the range allows for a multifunctional use throughout the week as well as at the weekend. as well as at the weekend. Whether as a couple, with the family or with friends, your van is always ready to go. Whether a day skiing, a day at the beach or even ... a surf session!

Ideal for your adventures

Multi-purpose layout

Individual, removable seats

**Convertible interior:**

The individual seats mounted on floor rails let you vary the layout to suit your needs.

# EXPERIENCE VERSATILITY!

Freedom and independence is what we all seek. You have the freedom to choose where your travels will take you. The freedom to stop or continue driving, as we feel necessary. After all, that is the appeal of travel. With the Westfalia Kepler Six, you get a campervan that perfectly caters to this need. The campervan sits on a VW T6.1 with a long wheelbase. It drives like a sedan thanks to the powerful turbo diesel engine combined with quality suspension, so you can travel in comfort.

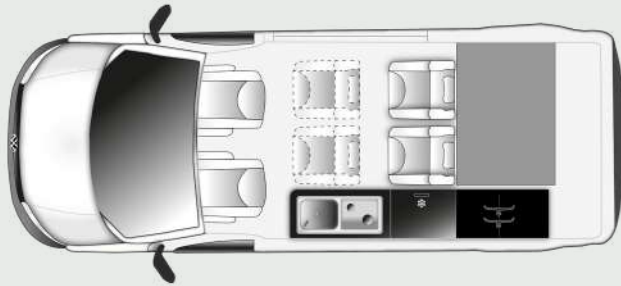

On this base vehicle, the Kepler Six features a pop-up roof, kitchen, sleeping area and storage space, making it not only a multi-purpose recreational MPV but also a valuable everyday vehicle that will quickly become an essential part of your life.

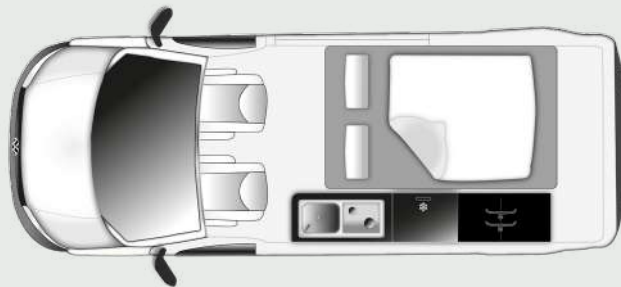

# FEATURES

- Outstanding driving comfort with the Transporter Volkswagen T6.1
- Leisure and utility vehicle with generous storage capacity
- < 2 metres high
- Up to 6 driving seats (4 seats as standard) and 4 berths
- Seats on modular, independent rails
- Seats with Isofix attachments
- Easy low bed conversion
- 40-litre fresh water and 30-litre waste water tanks

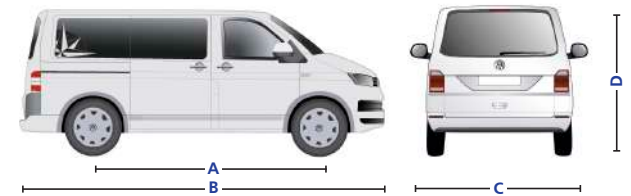

Day layout (with optional 6-seat configuration)

Night layout

B:Length	5300 mm
C:Width	2297 mm
D:Height	1995 mm

Comfort dashboard with optional Cockpit Pack shown

Layout with no seats and low bed unfolded.

Layout with no seats and low bed folded away.

# MULTI PURPOSE AND MODULAR!

When you choose the Kepler Six, you get even more features and layouts to suit all your everyday and leisure activities. Whether you are travelling for a weekend mountain biking competition or to watch a match at your favourite club, your vehicle is ready to head off on all your adventures!

Comfort is also a key concept for this model. You can concoct a delicious meal, in no time at all, thanks to the kitchen unit. The fold-out low bed system developed by Westfalia also provides greater sleeping comfort with its bed frame and choice of materials.

*It only takes a few steps to set up your bed in the lounge of your Kepler Six. Once folded away, the bed can be moved forwards or backwards using the notches. Such handy versatility!*

# JULES VERNE

The Jules Verne is the most high spec model in the range. It stands out with its exclusive car-style design. There's no doubt about it - whether with the Elegance or Avantgarde finish, the Jules Verne is decidedly eye-catching.

Inside is a cosy space. The lounge is organised around the L-shaped bench seat - a rarity in the pop-up roof campervan category. The luxury kitchenette provides maximum comfort with a 2-hob stove, sink and large 51-litre refrigerator.

*Ideal for your next trip around the world or your trips to town, with its compact 5.14-metre length it can go everywhere!*

Private bathroom

Comfortable lounge area

Compact 5.14-metre length

Jules Verne was born in 1828 in Nantes, France, and died in 1905 in Amiens. He was a French writer whose canon is predominantly comprised of adventure novels evoking the 19th century's scientific advances, including the famous 'Around the World in 80 Days'.

Numerous storage options

# UTTERLY FASCINATING!

Naturally, what is good enough for Kepler One is definitely good enough for Jules Verne - a similar campervan concept on a more premium base vehicle with a Mercedes Vito chassis. For the Jules Verne, the Mercedes Vito provides a platform for an innovative vehicle. Compact, agile, and able to fit in underground car parks: these are just some of this model's attributes. The interior design of the Jules Verne also features an L-shaped lounge that converts to a double bed. A second double bed measuring 190 x 117 cm can be found in the pop-up roof.

Boasting a saloon car-worthy driving position, the driver and passenger seats easily swivel to become part of the lounge in no time at all.

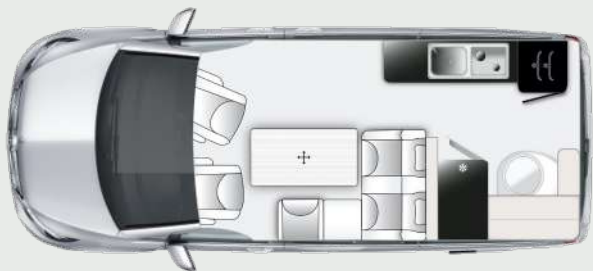

Presented here with the 'Avantgarde' finish including the chrome interior package, seats in two-tone 'Montana' upholstery.

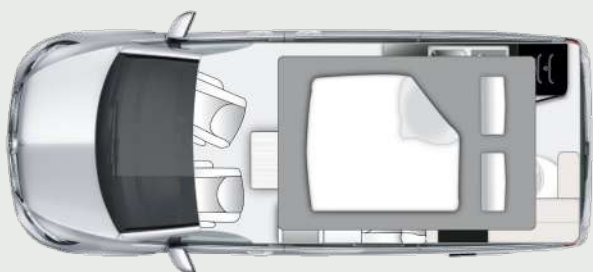

## FEATURES

- Mercedes Vito base vehicle
- Unrivalled driving comfort
- Can go anywhere with its 5.14-metre length
- Fits under the < 2-metre car park bar
- Town and leisure uses
- Hot water, toilet, heating while parked and shower tray as standard
- 4 driving seats and 4 berths
- 50-litre fresh water and 36-litre waste water tanks
- Optional 4Matic

Day layout

Night layout

Chassis	Mercedes Vito 114 CDI chassis
Diesel engine as standard	100 kW/136 hp
Gearbox	9-G Tronic
Transmission	Rear-wheel drive

## Jules Verne - measurements

A:Wheelbase	3200 mm
B:Length	5140 mm
C:Width	2244 mm
D:Height	1995 mm

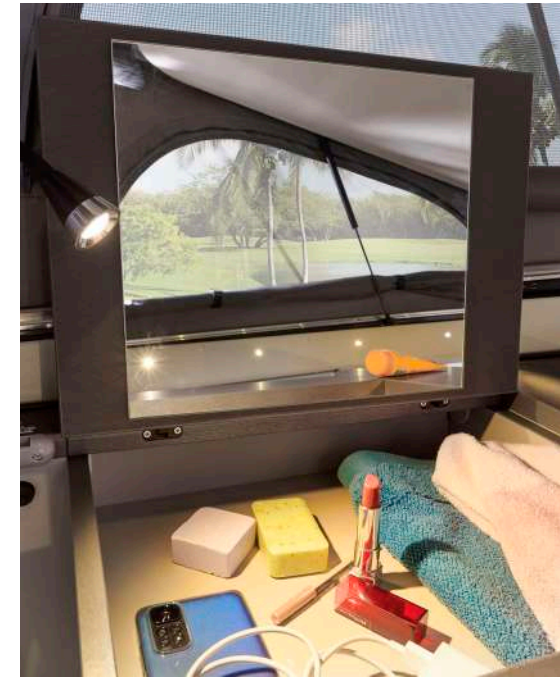

Shown here with Avantgarde finish and Selenite Grey.

Presented here with the 'Missouri' upholstery.

**Sleeps up to 4 people**

So clever! The lounge area converts to an extra bed thanks to the two mattresses stored in the wardrobe behind the bench seat.

With make-up mirror as standard.

# VOLKSWAGEN CHASSIS

As you know, the Westfalia story started in 1844 and our brand has become famous worldwide thanks to our first campervan using the... Volkswagen Camper!

Today, we continue this collaboration with our Kepler models.

With the Transporter T6.1 base, the successor to the combi-vans, Volkswagen maintains its reputation for outstanding driving comfort. Its dual-clutch automatic gearbox, the DSG, also has a reputation as one of the best on the market, with ultra-fast gear shifts.

Version	Engine	Transmission
Kepler - VW T6.1	150 hp, 110 kW, 340 nm (automatic gearbox)	Traction
Kepler - VW T6.1	204 hp, 198 kW, 450 nm (automatic gearbox)	Traction

Indicative Volkswagen figures. Subject to modifications and improvements. Available with automatic gearbox only.

**4Motion:** this optional all-wheel-drive transmission system automatically and independently acts to optimally distribute power between the wheels when one or more tyres lose traction. Perfect for difficult terrain!

It can be boosted by a differential lock that distributes power evenly between to the two rear wheels.

16" hub caps

16" Clayton alloy wheels

17" Devonport alloy wheels

17" Posada alloy wheels

18" Teresina alloy wheels

# MERCEDES CHASSIS

Mercedes is undoubtedly a key automotive world brand, with a reputation for reliability, elegance and technical expertise.

Our partnership with Mercedes goes back to the 1980s and intensified with the creation of our Jules Verne model. Sitting on a Mercedes Vito base, our Jules Verne model boasts great livability and is both a stylish vehicle and a RV.

Available as an option, the 4Matic all-wheel drive transmission delivers impressive engine and terrain-crossing abilities.

Version	Engine	Transmission
Jules Verne - MB Vito Euro 6d	136 hp, automatic transmission, 100 kW, 330 nm	Rear-wheel drive
Jules Verne - MB Vito Euro 6d	163 hp, automatic transmission, 120 kW, 380 nm	Rear-wheel drive
Jules Verne - MB Vito Euro 6d	190 hp, automatic transmission, 140 kW, 440 nm	Rear-wheel drive

Indicative Mercedes figures. Subject to modifications and improvements.

For the Avantgarde finish, the Jules Verne features 17" Premium diamante alloy wheels.

The Elegance finish comes with RK8 alloy wheels.

**Mercedes me connect:** this software records your vehicle data and sends it to your smartphone in real time.
