This brochure has been designed to provide you with basic information prior to making a purchase decision. It is advisable to consult with a member of staff before a final decision is made. Every effort has been made to make sure all the information in this brochure is correct at time of going to print – October 2017. Wandahome (South Cave) Ltd reserve the right to alter technical specifications, prices and model information as materials and conditions demand and can accept no responsibility for any discrepancies between these and subsequent models. Household items illustrated in the brochure (e.g. personal effects) have been used to enhance photography and are not supplied with the caravan. Due to varying awning designs and sizes the awning sizes printed in this brochure are approximate sizes only. Awning sizes must be confirmed by a member of staff prior to purchase to confirm a correct match between caravan and awning. Weights: The method of calculating the Mass in Running Order (MRO) and user payload figures has changed in order to bring it in line with European Vehicle Directives. These weights can be explained by a member of staff on request if you require further clarification. LED Road Lights: Certain vehicles may require a secondary fuse box when towing models fitted with LED road lighting. Bed Sizes: Please note that the front double bed sizes quoted are for seating configurations without a chest of drawers. The double bed width for a layout with a chest of drawers fitted, will be reduced by 0.4m (1'4") from that stated. Limitations in the printing process may mean upholstery colours are not truly represented.
