2025 Motorhomes

Your Home Anywhere

Welcome to Swift UK's No.1 brand for leisure vehicles

We are the UK's largest leisure vehicle manufacturer producing touring caravans, motorhomes, campervans and holiday homes.

We've grown from simple foundations back in 1964, when our founder Ken Smith built his first touring caravan, to become the UK's number one leisure vehicle brand.

Our philosophy is to build leisure vehicles that are at the heart of your holiday, whether that be nestled in the countryside or by the sea, searching out active pursuits or simply enjoying a quieter pace of life. With a lifetime of memories waiting to be made, it's time to find your ultimate motorhome.

Introducing The Swift Difference

There's no better feeling than stepping into your motorhome for a relaxing getaway. We've dedicated countless hours of research and development to ensure that every detail of your motorhome is built to last and luxuriously comfortable, so you can get on with the important things in life – creating memories and enjoying unforgettable holidays.

Only when you choose Swift can you enjoy this exclusive package of benefits, as part of our Swift Difference.

**Check out our guides,
articles and features!**

SMART construction

The UK's leading modern construction system with 'PURE' timberless framing that's impervious to water.*

*Coachbuilt motorhomes only

Efficient living

Swift motorhomes are engineered with efficiency at its core - from aerodynamic exteriors to low energy LED lighting and dual fuel systems to onboard water tanks.

Long term warranties

Extra reassurance with multiple warranties including an industry leading 10 year bodyshell warranty on coachbuilt motorhomes.*

*Terms and Conditions apply

Supreme comfort

Enjoy an exceptional night's sleep with a Duvalay mattress fitted to all fixed and drop down beds and exclusive to Swift.

Expert training

Launched in 2015, The Swift Academy provides our employees with the opportunity to develop their skills at every stage of their career, encouraging our employees to reach their full potential. We have invested in the Swift Academy because we believe in our people and want to demonstrate our commitment to their development.

All year freedom

Swift motorhomes are tested to the extreme in a cold chamber to ensure they achieve the Grade 3 thermal insulation rating. The internal temperature can be maintained at 20°C while the external temperature is as low as -15°C, so you can stay warm and comfortable whatever the weather.

Extensive choice

With over twenty models across our four motorhome ranges, there is a huge choice to suit most budgets and tastes – and all supported by the UK's largest dealer network. A large proportion of Swift Motorhomes can also be driven with a standard driving licence.

My Swift Life

My Swift Life provides owners with a unique personal profile, where you can access information that's specific to your caravan, campervan or motorhome, including; outstanding warranty claims, service information and a direct line into our Swift customer experience team.

Pioneers

Innovation is our passion. We continually push the boundaries and utilise state-of-the-art design and construction techniques to ensure our products look sensational, work intuitively and function efficiently. Swift Command*, a product of innovative thinking, monitors and controls onboard systems via a user-friendly panel and smartphone app.

*Range specific

Standing the test of time with Smart Construction

As the trailblazer in the leisure vehicle industry, we have consistently raised the bar with our unwavering commitment to research and innovation.

Providing you with peace of mind, SMART is an ingenious blend of materials and construction techniques that guarantee enhanced structural integrity, improved insulation and all-important weather resistance - ensuring your investment will stand the tests of touring and help retain your motorhome's residual value.

Strong

The strong timberless body frame uses 'PURE', a tough, hard polyurethane based product, that is totally impervious to water and has been proven through use.

Modern

SMART uses modern materials produced using cutting-edge technology and has been developed to ensure the exterior profiles maintain the modern desirable looks our coachbuilt motorhomes are renowned for.

Aerodynamic

We continue to lead the way in aerodynamics using Computational Fluid Dynamics to help shape the bodyshell for better fuel consumption and safer towing.

Resilient

All sides, roofs and rears of our coachbuilt motorhomes have outer and inner GRP skins. GRP is more impact resistant than aluminium and can be easily repaired, ensuring long lasting good looks, securing your investment for the future.

Tested

Extensive safety and durability testing at the Millbrook track, and cold chamber testing down to minus 15°C and beyond puts prototypes through conditions most products will never have to experience in a lifetime.

PURe Polyurethane framework

The strong timberless body frame uses 'PURe', a tough, hard polyurethane based product that is totally impervious to water, ensuring the longevity of your motorhome.

Polystyrene core

For ensured accuracy, lightweight polystyrene is cut to shape using the latest water jet technology. With 28mm polystyrene used in the side walls and roof, all Swift motorhomes meet the Grade 3 thermal properties needed for year-round adventures.

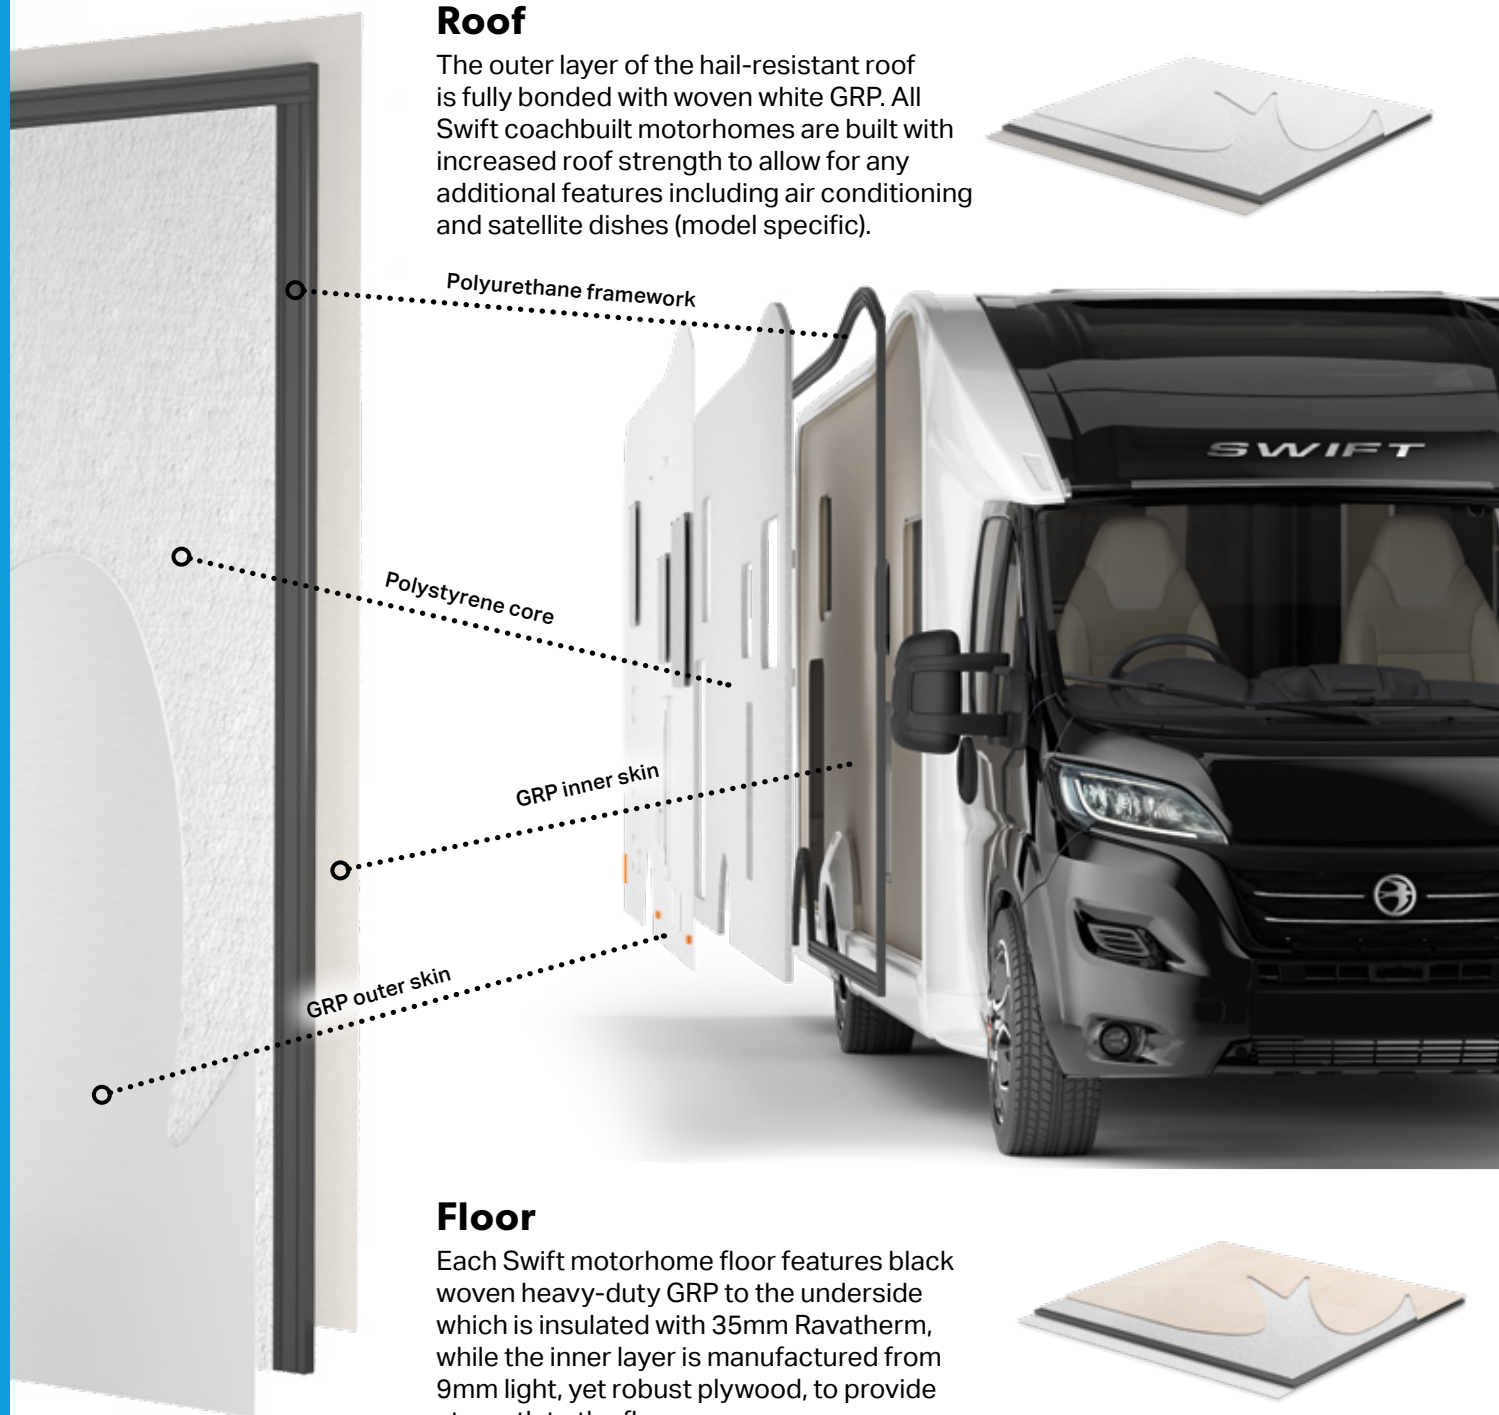

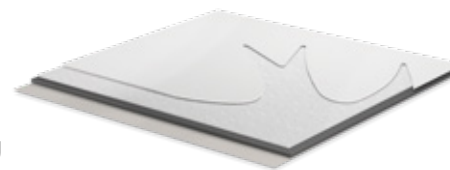

GRP

Manufactured at Swift, our GRP (glass reinforced plastic) front and rear panels are robust and resilient. The side panels feature outer and inner GRP skins of the same thickness to create a balanced panel which allows the motorhome to expand and contract in different climatic conditions.

Unlike other manufacturers, our GRP inner skin does not use any jointing tape - all Swift motorhomes have a jointless sealing in the walls, and are embellished with wallpaper finishes.

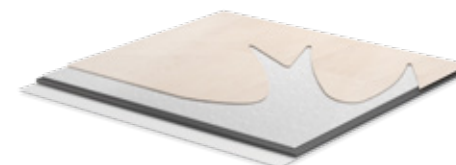

Roof

The outer layer of the hail-resistant roof is fully bonded with woven white GRP. All Swift coachbuilt motorhomes are built with increased roof strength to allow for any additional features including air conditioning and satellite dishes (model specific).

Floor

Each Swift motorhome floor features black woven heavy-duty GRP to the underside which is insulated with 35mm Ravatherm, while the inner layer is manufactured from 9mm light, yet robust plywood, to provide strength to the floor.

Introducing Ascari

The Ascari is a narrow coachbuilt motorhome. Streamlined and nimble, it's similar in size to a panel van giving extra driving confidence to anyone new to motorhome travel. Complete with a sleek exterior and a stylish, modern interior, it's filled with all the travelling essentials and more.

Layouts at a glance

When selecting the ideal motorhome layout, it's crucial to prioritise functionality and comfort to ensure a fulfilling travel experience. Start by considering the number of travellers and their individual preferences, including sleeping arrangements and desired amenities.

Front lounge layouts offer versatile seating and sleeping options, making them suitable for couples or small families seeking adaptability. Alternatively, rear lounge configurations provide expansive living areas with panoramic views, ideal for those prioritising relaxation and scenic enjoyment.

Island bed and corner bed designs prioritise easy access and comfort, while drop down beds optimise space without compromising lounge areas.

Classic motorhomes emphasise manoeuvrability and everyday usability, making them ideal for adventurers seeking versatility.

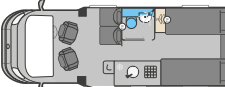

Assess storage options, bathroom and kitchen facilities, and overall liveability to find the perfect layout tailored to your unique travel preferences and needs, enhancing your journey with comfort and convenience.

F Front lounge bed	D Drop down bed	I Island bed
C Corner bed	R Rear lounge bed	S* Single bed(s)
LU Luton bed	 Drivable on standard licence	*Option to convert the 2 single beds into a double bed.

Fabrics at a glance

We use research, insights and trends to keep ahead of the designs that appeal to both today's and tomorrow's customers. We take the time to understand what designs appeal to you and your holiday lifestyle.

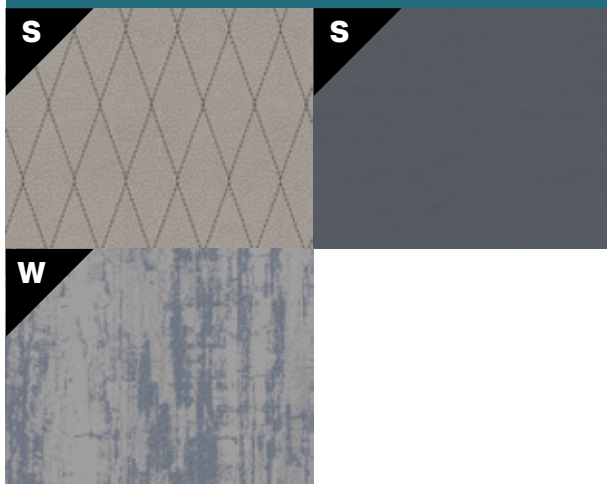

Today's trends involve a higher degree of ecological and environmental decisions, and at Swift, we share these values in our design and manufacturing decisions. We aim to replicate the natural world in colour and material choices within all of our products.

Keeping on top of the trends, through observation and research, we have seen a change in how our leisure vehicles are used. They are now more than just a place to relax and holiday, they also offer a home office space, where leisure and work can now comfortably mix, creating a new design vision and consideration for our motorhomes of the future.

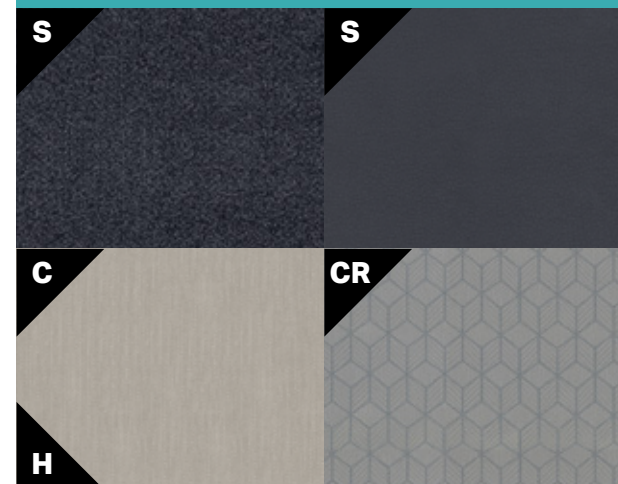

Ascari

The Ascari range is fitted with the contemporary River fabric scheme, which has cool grey tones for a calming interior.

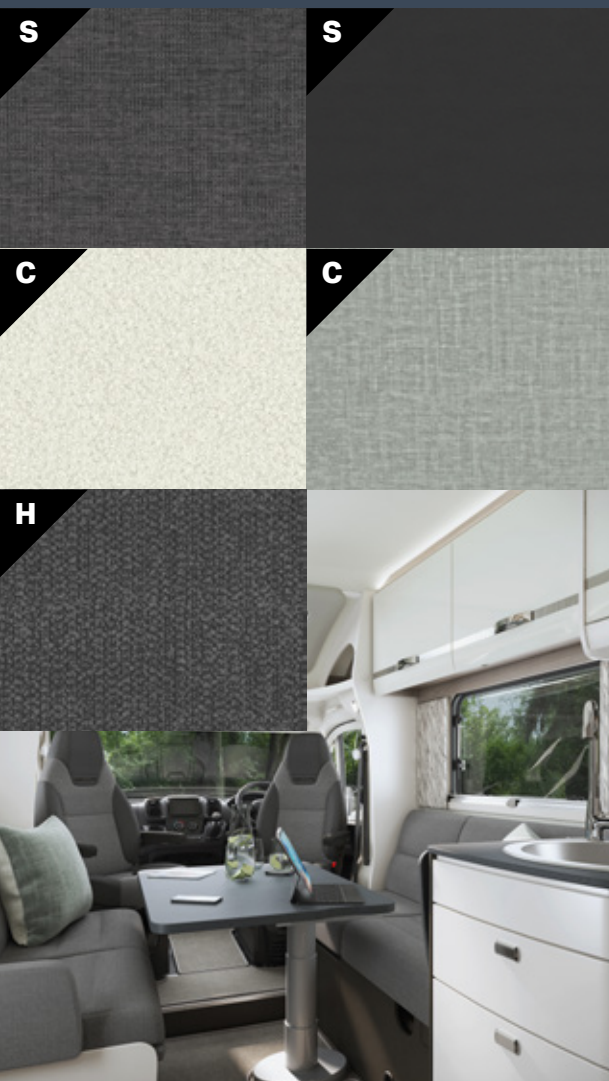

Voyager

The Voyager range is fitted with the Jet soft furnishing scheme which have stain resistant properties and are easy to clean.

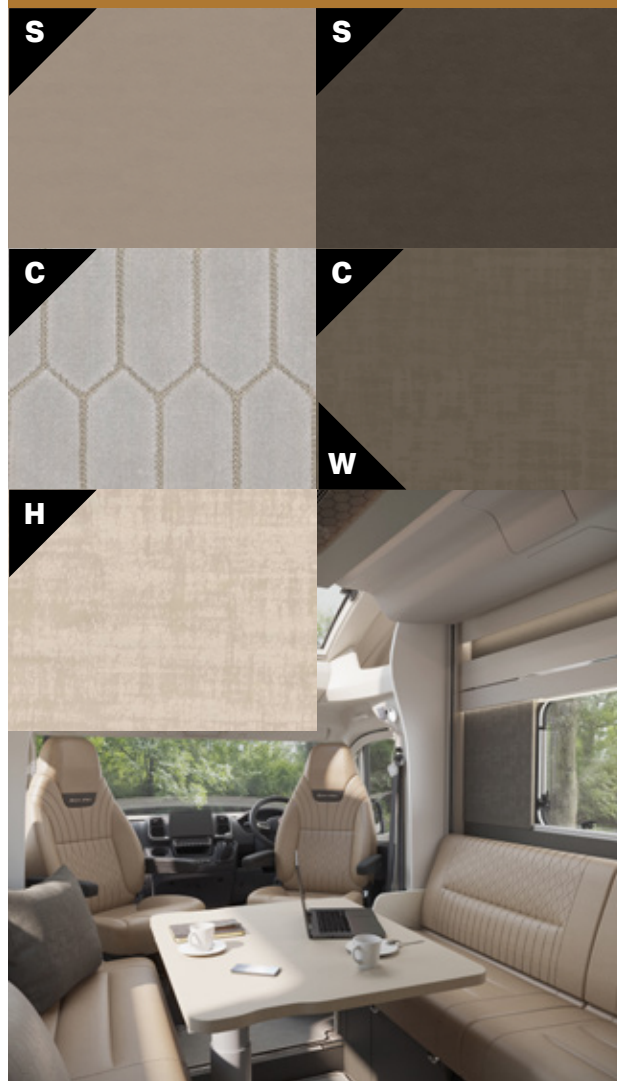

Escape

The Escape range is fitted with the stain resistant, easy to clean Acacia soft furnishing scheme. Its light stone colour evokes a natural ambience.

Kon-Tiki

The Kon-Tiki range is fitted with the Ultraleather® Cinnamon soft furnishing scheme. This cream vegan leather is easy to clean and stain resistant, combining style and practicality.

aquaclean[®]
fabrics for living

At Swift, we believe holidays should be about relaxation and unforgettable memories. That's why we enhance our motorhomes with Aquaclean® technology* - a revolutionary fabric treatment that keeps your upholstery pristine with minimal effort.

Why Aquaclean®?

Aquaclean® technology lets you clean stains using only water. Easily wipe away wine, ink, sauce, and mud without harsh chemicals. This advanced protector ensures dirt stays on the surface, making clean-up a breeze and giving you more time to enjoy your travels.

Stress-free holidays

During cozy family dinners or spontaneous snacks, Aquaclean® keeps your motorhome's upholstery spotless. Spend less time cleaning and more time enjoying the open road and quality moments with loved ones.

See how it works!

Scan the QR code to watch a demo given by Aquaclean® Sales manager, James Lowe.

* Does not apply to Kon-tiki, which is instead equipped with stain resistant ultraleather

Specification at a glance

1. The Maximum User Payload includes:

- the conventional load (this is the allowance for passengers)
- essential habitation equipment (items and fluids required for safe and proper functioning of habitation equipment)
- optional equipment (items available from the manufacturer over and above the standard specification)

d. personal effects (those items not covered by the above)

- The Mass in Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver plus engine coolants and 90% of the fuel tank capacity and 1 x 6kg Calor Lite LPG cylinder.
- The MRO is calculated with the fresh water tank empty. If you travel with water in the fresh water tank then the payload will reduce accordingly.

4. Please take care to ensure that you have allowed for the masses of all items you intend to carry in the motorhome, e.g. passengers, optional equipment, essential habitation equipment and personal effects, such as clothing, food, pets, bicycles, sailboards, sports equipment etc.

5. **Warning - under no circumstances should the maximum technical permissible laden mass of the motorhome be exceeded.**

6. Caution - When fitting a tow bar, it must meet certain minimum requirements as specified by Type Approval Regulations. The bar will have marked on it the approval standard (94/20/EC or 55R ECE) and the maximum download, or nose weight, that it can accept. It must fit the manufacturer's approved mounting points and must not obscure the towing vehicle's number plate.

7. Note - the additional weight of the tow bar and trailer nose weight increases the rear axle loading of the motorhome so

care should be taken that the rear axle load is not exceeded when towing.

The maximum trailer weight is limited by the gross train weight which must not be exceeded. For example if the vehicle is at the maximum MTPLM of 3700kg, then the maximum trailer weight possible is 1800kg. Reducing the weight of the vehicle by removing payload, will allow you to increase the trailer weight up to a maximum of 2000kg. If you are unsure please check with your local dealer the towing capacity of your vehicle.

† Torque increases to 380Nm on automatic options. MRO increases by 20kg on automatic options. Payload decreases by 20kg on automatic options.

‡ MRO increases by 30kg on automatic options. Payload decreases by 30kg on automatic options with a standard MTPLM of 3500kg.

*Estimate ^Option **Requires annual subscription

+Based on standard specification. Weight increases above 3500kg when adding auto gear box to 475 and 485 models. Auto options available at 3500kg with four travelling seats

More control with **Swift Command**

Only available with our Kon-Tiki range, Swift Command monitors and controls the onboard systems via a touch screen panel and a smartphone app, so you can always be in control.

With the convenience of your mobile device, you can access the onboard interface using Bluetooth when near your motorhome or via your internet connection when remote.

Swift Command enables you to track system levels such as power, temperature, and humidity, and monitor the location of your vehicle. You can even control the heating, activating it for a warm return on colder days.

The app also lets you set up notifications to keep you informed of important functions, such as battery levels, frost alerts and alarm status.

Head to the Apple or Android store and search for 'Swift Command'.

For even greater peace of mind, you can subscribe to the Thatcham Category S7 approved pro-active tracker to add extra security to your vehicle.

Swift Command Tracker by Sargent is monitored by an approved monitoring centre which operates 24 hours a day 7 days a week and provides European coverage and direct police liaison. This system is ready for use, all you need to do is purchase a tracking subscription by visiting www.swiftcommand.co.uk or calling Sargent on 01482 881655.

Lighting

Create just the right ambience onboard with easily adjustable lighting settings.

Location and remote features

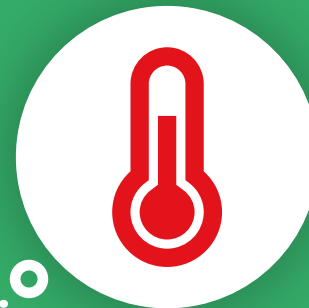

Connect to your leisure vehicle from anywhere to view its systems information and location.

Conveniently control and monitor your onboard services when away from your vehicle.

Water

Keep an eye on your precious water levels so you know in good time when to top-up.

Heating

Activate whilst out exploring and enjoy the warmth when you get back.

Power

Track your energy use and manage your batteries for efficient use of your all important power services.

Fridge

Track your energy use and manage your batteries for efficient use of your all important power services.

Get personal with My Swift Life

My Swift Life* provides owners with a unique personal profile, where you can access information that's specific to your caravan, campervan or motorhome, including; outstanding warranty claims, service information and a direct line into our Swift customer experience team.

Log in to My Swift Life and report faults directly to Swift, enabling us to work together and allowing us to respond more quickly to your needs. Our new platform hosts a variety of information, including product notifications, customer bulletins, product recalls and upgrades, as well as important notifications about our products and services.

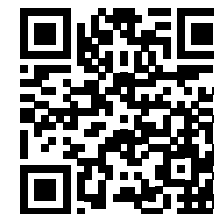

Using My Swift Life, you can also view chargeable orders that have been placed on your behalf, by your Swift dealer or servicing provider, along with any outstanding warranty claims from the date of ownership.

What's more, you'll have access to useful tips and our comprehensive "How To" video library, designed to help you familiarise yourself with your Swift caravan, campervan or motorhome.

* Available to UK registered customers only.

Join My Swift Life for all this and more!

- Access to useful "How To" video guides
- Access to personalised information 24/7
- Ability to report faults directly to our customer care team
- Authorised claims passed directly to dealer to speed up the warranty process
- Product upgrades notifications
- Live messaging direct into Swift's customer experience retail team, including direct access to technical support
- Upload service history records
- Service history reminders
- Useful bulletins and alerts

Swift owners clubs

Swift Motorhome Owners Club

We are a group of like minded people who meet up throughout the year at rallies held by the Club.

Some rallies coincide with National Motorhome Shows, some take us to luxury campsites, others abroad - in short we aim to provide something for everyone.

Our members come from all walks of life, and all parts of the country. The 'vans' they own vary from large to small and from very new to very well used. The common bond between us is that we own a Swift Group motorhome or campervan. Membership of the club is open to anyone who is the owner of a Swift Group motorhome or campervan.

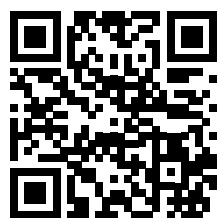

Join up!

Swift Owners Club

The Swift Owners Club is the natural home for owners of Swift Group caravans, campervans and motorhomes. Our members come from all walks of life and include families, couples, single and retired people. Everyone, including pets, are welcome!

Joining our Club offers a host of social benefits and is probably one of the best investments you could make. If your caravan, campervan or motorhome is a brand owned by the Swift Group, or is an Airstream caravan (model years 2017, 2018 or 2019), what are you waiting for?
